

# MAJORS, CONCENTRATIONS, AREAS OF EMPHASIS, AND MAJORS LEADING TO TEACHING CERTIFICATIONS

---

The OLE Core Curriculum provisions of St. Olaf's liberal arts curriculum are designed to encourage in students a breadth of knowledge. The requirement that a student complete a major in order to graduate fosters the development of knowledge in depth.

Students at St. Olaf have 47 Bachelor of Arts graduation majors from which to select, as well as a number of teaching majors and teaching certification programs. Many students choose to major in one of the traditional liberal arts disciplines, such as art, biology, economics, history, mathematics, philosophy, or a world language. Others choose an interdisciplinary program that brings the perspectives of several disciplines to bear on a specialized area of concern, such as Asian studies, environmental studies, or gender and sexuality studies. Some students choose to double major or to pursue a concentration or certification program in addition to a disciplinary major or to develop an area of emphasis within a major. Students may also propose an individual major through the Center for Integrative Studies. Students interested in a professional music degree can pursue one of the five different majors available within a Bachelor of Music degree.

One major is required for graduation. Some students opt to pursue two majors, and others add an area of emphasis (a program of three or more related courses within or beyond certain majors) or a concentration (an approved program of four or more courses that cuts across departmental boundaries).

Students must declare one major no later than March 15 of the sophomore year, in advance of spring registration for fall semester courses. Majors (with areas of emphasis) and concentrations are officially listed, once awarded, on the student's permanent record. Students interested in a major leading to teaching certification must first be admitted to the Teacher Education Program.

## Bachelor of Arts Graduation Majors

Bachelor of Arts majors are not available to Bachelor of Music candidates.

- ancient studies
- art, studio
- art history
- Asian studies
